

COVID-19 Vaccination Phase 1B

Assistance for Persons Aged 75 years and Older

All persons aged 75 years and older that require assistance completing the online survey tool to be added to the list of RRHD residents that would like to receive COVID-19 vaccine may call **540-308-6072** to speak with a health department employee.

If you have successfully completed a survey, please do not call as this will cause duplicate entries, which will slow down our response to you and the community at large. Likewise, if you are able to complete the survey independently, we encourage you do to so at [RRHD 75 years and Older Vaccine Interest Survey](#)

As vaccine availability allows, RRHD will reach out to you by phone to schedule an appointment to receive vaccine.
